DINESH K

Career Objective

I want to work for a company where I can put my technological abilities to the greatest possible use for the company's success while also continuing to study and increase my knowledge.

Experience

Recodem Private Limited, Chennai

Aug 2023 - Jan 2024 (5 months - Internship)

Job Position here

- As an intern at Recodem, have worked to build and develop an ecommerce website in both front-end and back-end
- Have worked on APIs to connect with servers
- Have worked with Non-Relational Database (MongoDB)

Projects

- **Developed E-Commerce website**
  Utilizing the React framework, Express, and MongoDB as the database, CRUD activities were carried out on the e-commerce website. ShopIT is an online shopping application. For both buyers and sellers, it is quite helpful. Customers can easily order products and have them delivered to their homes.
  Netlify: ShopIT

- **Developed Destination Calculator and Tip Calculator**
  Have used only vanilla JavaScript. The destination calculator will provide you with a brief destination path as well as the date your package will arrive at its destination. Tip calculator will tip the bills with different percentage for the users.
  Netlify: Destination Calculator | Tip Calculator

- **Weather App using React**
  Utilizing React framework, to create a dynamic and user-friendly interface. Fetching real-time weather data from a weather API. Users can search for weather information based on city.
  Netlify: Weather App

- **Fun Games using HTML CSS and JavaScript**
  Creating entertaining games build with HTML, CSS and JavaScript.
  Netlify: Rock-Paper-Scissors | Guess My Number
